SKILLS

FRONT END DEVELOPMENT | • HTML5 • CSS • Bootstrap

• JavaScript • React-js.

BACK END DEVELOPMENT | • Core Java • Servlet • Jsp • OOP'S

• Jdbc • Core Spring, • Spring Jdbc.

Database | • Sql.

PROJECTS

Class Room Management System.

- BE Final Year Project
- The reason behind this project is to design a system that makes storing student information easy. The function of this system is to manage all data of students like Name, Contact Number, Email Address, Gender, Roll Number, Date Of Birth (DOB), Department, Semester, and year in the classroom. All information will be stored on the MySQL database and it allows college staff to manage the information. The results showed that this project can effectively use technology to manage student information status. Thus, the designed system provides low complexity, and low power consumption.
- Programing Language : - Core java,jdbc,Servlet,jsp.
- Frontend Technologies :- HTML/CSS, Bootstrap,Js.
- Database Management :- MySQL.

Student Attendance Management System.

- This project is to develop a simple and efficient Student Attendance Management System using SQL database and Java programming. This system aims to automate the process of tracking student attendance in educational institutions, providing a user-friendly interface for administrators and teachers to manage attendance records effectively.
- Programing Language : - Core java,jdbc,Servlet,jsp
- Frontend Technologies :-HTML/CSS, Bootstrap,js
- Database Management :- MySQL

Library Management System.

- C Language Mini Project
- Developed a Library Management System in C, enabling users to add, allocate, and return books efficiently.

EDUCATION

BE – IT | Anuradha Engineering College, Chikhli

▪ Cgpa – 7.5CGPA | 2023

XII | Maharshi Bhoyareswar High School wadhona

X | Shir Shivaji Vidyalaya buldana

AWARDS

Best Video Editor Award | I was team lead of video editing team | won price for editing more number of videos and with good edits | on time edits with good quality.
